Application: For garden and agricultural use only.

Naik's All Organic Plant O Boost | Naik's All Organic Plant O Bloom

Serving Gardeners Since Generations

Naik's Springfield
Eco Friendly
All Organic
Plant 'O' Boost

CONTENTS :
Humic Acid 60%
Other Organic material 40%

Humate in Action:

1. Improves water holding capacity of soil.
2. Improves the wettability of soil.
3. Liberates carbon dioxide from soil calcium carbonates and thus make it available to the plant through the roots.
4. Increases plant nutrition by supplying available trace and minor elements.
5. Reacts with salt solutions to protect plant roots. In alkaline soils, humus reduces the amount & activity of high soil pH. In acid soils, humus absorbs and combines and retains certain toxic soluble aluminum compounds.
6. Prevents cooking of plants in residual water.
7. Improves sugar content of fruits and vegetables.
8. Increases seed germination rates.
9. Produces stronger, faster growing seedlings.
10. Prevents crusting of soils. It helps in balancing soil pH.
12. Increases plant recovery after mowing or damage.
13. Increases total growth of plants and yield.
14. Prevents leaching of chemical fertilizers.
15. Speeds decomposition of poisons.
16. Increases root system development.

Dose:
3 gm per Pot (small),
20 gm per plant (medium)
50 gm per plant (big)
1 kg. per 1000 sq.ft. Lawn
& other ground cover

Weight: 100gm

Plant 'O' Bloom

CONTENTS :
Nitrobenzene (a.i)... 18 %w/w
Desiccating agent... 5 %w/w
Encapsulating agent... 4 %w/w
Organic inert ingredients... 44 %w/w

Advantages :

1. Increase flowering in plant
2. Prevent flower shedding
3. It enhance early flowering. Plants take less time to flower
4. Yield contributing characters like plant height in crease is 8-10%
5. Number of branches per plant increase by 15-20%
6. Number of flowers per cluster increase by 33-35%
7. 20-30% increase in number of fruits per plant were recorded
8. Fruit weight increase is 20-25%. Bigger fruits are produced
9. Total yield increase due to nitrobenzene application is 35-50%
10. Quality characters like TSS (Total soluble solutes), in crease by 6-7% & acidity by 10-12%, Ascorbic acid 7-10% and total sugar % were 5-7.5% more was recorded Nitrobenzene was tested in many crops and increased yield was recorded. Trials were conducted at Agriculture University and in farmer's fields).

Dose:
3 gm per Pot (small), 20 gm per plant (medium),
50 gm per plant (big),
1kg. per 1000 sq.ft. flowering plants should be applied 2 inches away from the stem of the plant

Weight: 100gm

Description:
Epsom salt, a pure mineral compound of magnesium sulfate, is a time-tested supplement that provides a myriad of gardening benefits. Naik's All Organic Epsom Salt is a premium-grade, all-natural product designed to enrich your gardening experience. Serving gardeners for generations, this Epsom salt is perfect for both home and agricultural use.

How to Use:

♦ **For Plant Nutrition:**

Dissolve 5 grams of Naik's Epsom Salt per liter of water. Use this solution to spray or drench the leaves and roots of your plants, enhancing nutrient absorption and vigour.

♦ **For Soil Application:**

Directly mix 5 grams of the salt with the soil around the base of plants. This can help improve root function and soil structure.

Weight: 1 kg

Naik's All Organic Neem Cake

All Organic Mustard Oil Cake

Product Description:

An organic fertilizer that doubles as a pest repellent, enriched with the goodness of neem.

Usage Instructions: Apply one handful per pot.

Weight: 1 kg and 5 kg

Application: For garden and agricultural use, particularly beneficial in organic farming.

Product Description:

An organic fertilizer known for improving soil fertility and plant health.

Usage Instructions:

Mix 500 grams per litre of water, let sit overnight, and apply 1 tablespoon per pot to the soil.

Weight: 1 kg

Application: Best used for gardening and farming.

All Organic Castor Oil Cake

All Organic Cow Manure

All Organic Sphagnum Moss

Product Description:

Well-composted cow manure adds beneficial nutrients to the soil, improving fertility and soil structure.

Usage Instructions:

Use one handful for a 12" pot.

Weight: 1 kg

Application: For garden and agricultural use only.

Product Description:

Excellent for lining hanging and decorative soil covering.

Contents: 250 ml

Application: For garden and agricultural use only.

Naik's All Organic Compost | Naik's Mushroom based Compost

Product Description:

A rich, nutrient-dense compost that enriches the soil and provides plants with essential organic matter.

Usage Instructions: Apply one handful for a 12" pot.

Weight: 1 kg and 5kg

Application: Ideal for garden and agricultural use.

Product Description:

This compost is made from mushroom farming by-products, improving soil structure and water retention.

Usage Instructions: Apply one handful per pot.

Weight: 1 kg

Application: Ideal for soil application in gardens and agriculture.

Naik's All Organic Coco Peat

All Organic Coco Husk Chips

Product Description:

A sustainable, soil-less growing medium made from coconut husks, ideal for aeration and water retention.

Usage Instructions:

Mix with compost and soil as a potting mixture.

Weight: 1 kg and 5 kg

Application: Designed for garden and agricultural use.

Product Description:

Chunky pieces of coconut husks perfect for increasing soil aeration and reducing water loss.

Usage Instructions:

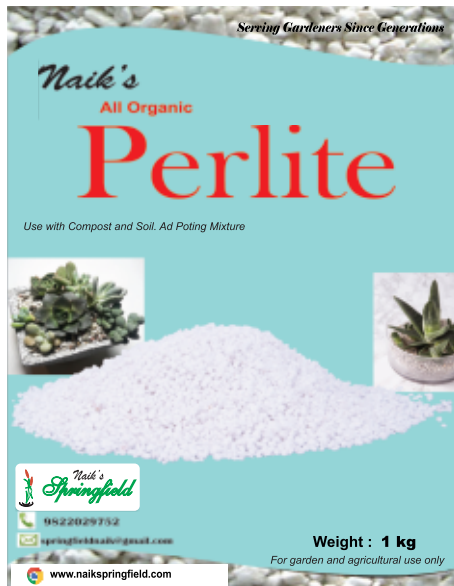

Use as a mulch or mix with garden soil.

Weight: 1 kg

Application: For garden and agricultural use only.

Naik's All Organic Perlite

Naik's All Organic Vermiculite

Product Description:

An all-natural soil amendment that improves drainage and root growth.

Usage Instructions:

Blend with compost and soil as a part of your potting mix.

Weight: 1 kg

Application: Suitable for garden and agricultural settings.

Product Description:

Vermiculite is excellent for aeration and improving soil structure, which promotes healthy root growth and helps to loosen heavy soils.

Usage Instructions:
